

# Save up to \$2,600

in annual tax credits with higher-efficiency YORK® equipment

The federally-funded Inflation Reduction Act (IRA) gives you an opportunity to save on the cost of replacing or upgrading your HVAC system with higher-efficiency equipment that can reduce energy consumption and lower utility bills. See chart below for minimum efficiency targets and eligible YORK® product model matches.

| Product type by eligible regions | 25C tax credit minimum requirements: 2023 - 2032<br>(30% of cost up to \$1,200 annual limit - heat pump annual limit of \$2,000*) |      |       |      |                  |                                      |                    |
|----------------------------------|---|------|-------|------|------------------|--------------------------------------|--------------------|
|                                  | SEER2   | EER2 | HSPF2 | AFUE | Credit (unit/yr) | Products with 25C eligible matches** | Total annual limit |
| Heat pump, split (south)         | 15.2  | 11.7 | 7.9   | -    | \$2,000          | YH2F, YZT, YZV                       | \$2,000            |

To receive the extended 10-Year Parts Limited Warranty or premium system warranty for qualifying units, you must register online at [www.upgproductregistration.com](http://www.upgproductregistration.com). Registration must be completed within 90 days of installation or 90 days of the closing date for new home construction. Failure to register online within 90 days results in a standard 5-Year Parts Limited Warranty. Failure to return the registration card does not affect rights under the standard warranty.
